## SIMONE'S SPORTING TIPS

### TENNIS HIT-RECOVER

So many players will hit a ball and watch the ball and compliment themselves on the shot. From now on you must hit and recover. I suggest you watch the pros- it actually looks like the pros are recovering in the middle of their hit. I don't suggest going to that extreme. Just hit, finish and get back to position.

### PICKLEBALL SAFETY FIRST

Many of our players have hurt themselves on the pickleball court, so please be cautious as an injury is not worth it. If the ball is too far away from you, just let it go and do not back peddle when running for a lob.

### BOCCE POINTING

Pointing is when you gently roll the ball to try and get it as close to the pallino as possible with your main goal being to score a point. It is sometimes called lagging, puntata, or punto. You'll need to keep your arm straight and move it like a pendulum while keeping your head still and your shoulders level.

# FITNESS PROGRAMS

**CHAIR YOGA** A class designed to calm and relax the nervous system. Most days are spent in our high stress living/working conditions that compromise our ability to relax. Using relaxation techniques, gentle movement and asana along with our breath you'll surely leave class with a feeling of calm, peace and serenity, you are seated on a folding chair.

**FITNESS FUSION** This class is designed for those who are interested in learning the correct and safe ways to exercise and use weights. The focus is to get a full body workout at your own pace- all muscle groups are engaged. Fitness Fusion is for participants who can exercise in the standing position. Options and progressions for each exercise will always be available.

**YOGA** Yoga is more than just flexibility! Build strength in the upper and lower body. Learn to move with awareness, breath deeper, gain strength, concentrate on alignment, find balance both physically and mentally and develop the ability to relax. The goal is to build a sound, healthy body and a clear, quiet mind.

**YIN YOGA** Yin is a style of yoga as exercise where postures are held for longer periods of time. Yin Yoga poses focus on the connective tissues of the body—the tendons, fascia, and ligaments—with the aim of increasing circulation in the joints and improving flexibility. A more meditative approach to yoga, its goals are awareness of inner silence. This practice is done completely sitting or lying the entire time

**ZUMBA** We take the “work” out of workout, by mixing low-intensity and high-intensity moves for an interval-style, calorie-burning dance fitness party. Once the Latin and International rhythms take over, you'll see why Zumba® Fitness classes are often called exercise in disguise. A total workout, combining all elements of fitness – cardio, muscle conditioning, balance and flexibility, boosted energy and a serious dose of awesome each time you leave class.

## CHILDREN'S GIFT DONATION DRIVE

November 18 through December 12  
Benefitting the Immokalee Child Care Center

On November 18, we will be getting a special delivery from the Pathways Immokalee Child Care Center. A tree with tags as ornaments will be displayed in the Lifestyle Center. A photo of a child along with their holiday gift request will be attached. Please choose a tag, and bring in a wrapped version of what is on the tag. Make sure you tape the tag on the wrapped present. Bring it back to the Lifestyle Center before December 12 or you can bring it to our Holiday Party. If you have any questions, please let the Lifestyle Team know.

Thank you for your participation!
