A MESSAGE FROM YOUR HOA PRESIDENT

I hope you are all having a lovely summer! We continue to sell homes here at Valencia Bonita. We are now at 836 sold homes or 84% sold out. We continue to see new neighbors as well. We are now at 612 closed homes or 61% closed.

It is wonderful to see everyone enjoying the full use of the beautiful amenities. I especially enjoy getting a chance to chat with you all when I visit there. We look forward to a fun rest of the year with lots of activities. I would like to give special thanks to Glenn Geisheimer, your homeowner board member, for all his help thus far. He has been a pleasure to work with.

Thank you to all the residents for your continued support of our beautiful community.

Dianna Betancourt
Project Manager and HOA President

A MESSAGE FROM YOUR LIFESTYLE DIRECTOR

It is exciting news to share that the clubhouse is expanding to fully operational hours from 7 a.m. to 11 p.m. daily. While we are still planning and structuring activities based on the CDC recommendations, it is nice to feel somewhat normal again following the COVID crisis. Masks are only required if you have not been vaccinated at this time. While the pool is the most popular spot to cool-off in the summer heat, please read all the pool rules prior to visiting us and share the rules with your guests. I look forward to seeing you around the clubhouse often.

Kelly Rhoades
Lifestyle Director

RACQUET CLUB UPDATE - PICKLEBALL AND TENNIS

We are reducing the number of reservation courts for Pickleball and increasing the number of open play rotational courts. Rotational courts use the whiteboard system and allow single players to pick up games compared to setting up groups. Courts are rotated on a per game basis. If there are players waiting for a court, play one game to eleven, and rotate off the court. Place your name in the next available square on the whiteboard and wait for the next rotation. Typically, the wait between courts is a short 5 to 10 minutes.

We are introducing a new event this summer on the tennis courts. POP tennis will now be offered, and FREE introductory sessions will be held on Monday mornings. Applications are currently being reviewed for our new Tennis Pro and we hope to have them available soon to expand Tennis lessons and clinics.

CHAD'S SPORTING TIPS

PICKLEBALL – Movement and Positioning

The key to understanding movement and positioning on the court is squaring your hips to the ball. This will aid in direction of movement and covering the high percentage areas on the court. The adage of the forehand always covers the middle is not always true. Think of the direction that the ball is coming from. If the ball is coming crosscourt, the person the ball is going toward will need to cover the middle and at times this means with a backhand.

TENNIS – Control and Targeting

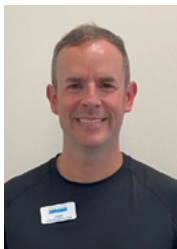

Want to be better at hitting your target areas on the court? Visualize a tunnel going from your body to the target. Each part of your swing needs to stay inside the tunnel and move forward through it. This includes your take back, load, contact, extension and finish. If any part of this process goes outside the tunnel it decreases your chance of hitting your target.

BOCCE – Consistent Roll and Adjustments

Consistent take back and release are important to a good roll but so is rhythm. Keep a consistent rhythm with your toss. Missing to the left or right, move your positioning on the court and keep the same roll. Try changing the way you toss with your arm versus moving with your feet.

Cable machines provide a very controlled motion and specifically isolate one muscle group at a time. Cable machines provide constant tension while you lift and lower the weight.
