## MESSAGE FROM YOUR HOA PRESIDENT

I hope everyone had a great 2021! The new year will bring many new and exciting events and activities for our residents.

Valencia del Sol has sold more than 78 percent of the 558 homes; and we have welcomed more than 270 residents to the community! We are welcoming approximately ten new homeowners to the community each month. Development in the final parcel is wrapping up and our construction team continues to start two homes each week.

During the first quarter of 2022, once we get closer the 50-percent mark, we will bring on a homeowner HOA board member. Once we get closer to that point, we will reach out to the residents to see who would like to run for the position. An election will be held and a homeowner will be elected as a homeowner board member.

We are thrilled to announce our new partnership with Sterling Spoon Culinary Management. Sterling will serve as the new café operator at Valencia del Sol. The restaurant's new name, Bistro del Sol, as well as a facelift to the inside and outside patio, will bring a new level of excitement to the Bistro. Sterling has a major foothold in the restaurant and hospitality industry and they will bring their expertise, knowledge, and a commitment to provide quality food and service to the community. It is our hope that all of the residents come to support this new venture.

Thank you for your continued support of our community!

Marisa Lufkin  
*Project Manager and HOA President*

If there are any issues or concerns within our community that need to be addressed, kindly bring them to my attention.

## PICKLEBALL

### BYRON'S PICKLEBALL MESSAGE

Players are reminded to wear the proper shoes to play pickleball. The recommended shoes are court shoes (i.e., tennis shoes) which will give players the support needed to play. Remember that pickleball utilizes a lot of lateral movement. This type of movement can cause ankle sprains or knee strains. Therefore, without the type of support court shoes provide, players can be susceptible to these types of injuries. Players are discouraged from playing in running shoes, as they would have a tendency to roll your ankles..

**LADDER LEAGUE** There will be a beginner and an intermediate flight for players of different skill levels. The format will be posted to the residents in a separate document. The league will produce a first, second and third place winner in each flight.

### BYRON'S PICKLEBALL TIP

As several players have noticed, pickleball, if not played properly, can be painful. There have been a few players who have experienced elbow pains (tennis elbow) from playing pickleball. This injury can be caused by improper technique when hitting the ball. It is extremely beneficial to use the proper stroke mechanics when striking the ball. The proper way to execute a stroke starts with the proper footwork and engaging your core. This is followed by swinging from the shoulder, then flexing the elbow and following through after striking the ball. In addition, try not to break the wrist. Too many players tend to lock their shoulder and swing from the elbow. This motion puts a lot of stress on the elbow and thus resulting in having tennis elbow pain. Apart from seeing your doctor, the initial recommendations, to ease the pain, is to rest the arm.
